

The University of Limoges (Unilim) is a French public research university based in Limoges in west-central France. Unilim is well-known for its Master's program in cryptology and information security (CRYPTIS). Master CRYPTIS was the first graduate program in France in the field of cryptology and has been consistently considered being one of the best cryptology training programs in France for over 30 years.

More about full scholarship to study the Master CRYPTIS Program is available [HERE](#)
