About

The University of Michigan is a public research university in Ann Arbor, Michigan. Considered one of the foremost research universities in the United States with annual research expenditures approaching $1.5 billion, Michigan is classified as one of the Doctoral Universities with Very High Research by the Carnegie Classification of Institutions of Higher Education. As of October 2018, 50 MacArthur Fellows, 25 Nobel Prize winners, 6 Turing Award winners and 1 Fields Medalist have been affiliated with University of Michigan.

Michigan has been lauded for having high standards of research, and the university's comprehensive graduate program offers doctoral degrees in the humanities, social sciences, and STEM fields (science, technology, engineering and mathematics). Michigan's body of living alumni comprises more than 540,000 people, which is one of the largest alumni bases of any university in the world and a valuable resource for current students when it comes to networking and building industry connections.
