About

Founded in 1905, the **National University of Singapore** (NUS) is the oldest higher education institution in Singapore. NUS is a comprehensive research university, offering a wide range of disciplines, from sciences, engineering, medicine to law, music and environment in every level of study. The QS World University Rankings 2019 ranked NUS 11th in the world. In the QS Graduate Employability Rankings 2018, NUS was ranked 30th in the world.

NUS takes an integrated and multi-disciplinary approach to research, working with partners from industry, government and academia, to address crucial and complex issues relevant to Asia and the world. The University's latest research focus is to use data sciences, optimisation research and cyber security to support Singapore's Smart Nation initiative.

The Faculty of Engineering was launched in 1968. It is the largest faculty in the university and consists of several divisions/departments: Biomedical Engineering; Chemical & Biomolecular Engineering; Civil & Environmental Engineering; Electrical & Computer Engineering; Engineering Science Programme; Industrial & Systems Engineering; Materials Science & Engineering, Mechanical Engineering, and Division of Engineering and Technology Management.

The NUS Faculty of Engineering was ranked 6th in the world by the Academic Ranking of World Universities for Engineering/Technology and Computer Sciences. It has also been ranked 7th in the world in the subject category of Engineering and Technology by the 2017 QS World University Subject Rankings and 2016-2017 Times Higher Education World University Subject Rankings.
