

About

The University of Washington (UW) is a public research university in Seattle, Washington. Washington is classified as an R1 Doctoral Research University (the highest) classification under the Carnegie Classification of Institutions of Higher Education. As the flagship institution of the six public universities in Washington State, it is known for its research in medicine, science, as well as its highly-competitive computer science and engineering programs. UW has been affiliated with many notable alumni and faculty, including 20 Nobel Prize laureates and numerous Pulitzer Prize winners, Fulbright Scholars, Rhodes Scholars, Marshall Scholars, as well as members of other distinguished institutions. UW is a globally recognized flagship university, as reflected in its strong performance across global rankings. QS World University Rankings ranked it 66th worldwide in 2019.
