

THE UNIVERSITY OF  
MELBOURNE

## About

**The University of Melbourne** is a public research university located in Melbourne, Australia. Founded in 1853, it is Australia's second oldest university and the oldest in Victoria. The QS World University Rankings 2019 ranks Melbourne 39th globally and ranked sixth in the world according to the 2019 QS Graduate Employability Rankings. Ten Nobel laureates have been students or faculty, the most of any Australian university.

Over 8,000 academic and professional staff support a vibrant student body of more than 48,000, including 13,000 international students from over 130 countries around the world. Four Australian prime ministers and five governors-general have graduated from the University of Melbourne, located in the city dubbed Australia's "cultural capital".

Indeed, Melbourne is a seven times winner of the Economist's World's Most Livable City award, and is a UNESCO City of Literature, as well as the birthplace of Australian rules football and a major center for street art, music, and theatre.

Melbourne is known for offering students an experience that's a lot more than just structured learning. The main Parkville campus is close to transport, cafes, shopping, arts and sports venues and accommodation.

Degrees at the University of Melbourne stand out for being modelled on those from top institutions overseas. Students spend a year exploring a range of subject areas before choosing a major. They also study subjects outside as well as inside their chosen discipline, giving Melbourne students a breadth of knowledge that sets them apart.
